

## How to use:

- Print, cut, and laminate to make the cards into a game
- Assure you're being flexible with responses (i.e., if the client responds with "library" to "Where can you go learn?" this is correct, even if it's NOT what is on the picture card)
- Make sure you have a generalization plan for the client to generalize responding to WHERE questions outside of the context of cards!
- Check back our site ([www.behaviorfy.net](http://www.behaviorfy.net)) for updated materials and free resources!

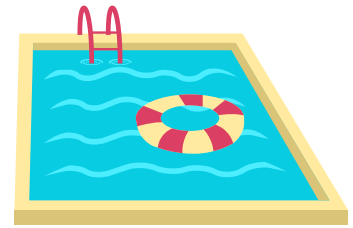

**Where do you go when you're sick?**

**Where do you go learn?**

**Where can you go swimming?**

**Where can you go to board a plane?**

**Where does a fireman work?**

**Where does a policeman work?**

**Where do you go eat food?**

**Where do you take your pet when they're sick?**

**Where does a farmer work?**
