

How to use:

- Print, cut, and laminate to make the cards into a game
- Assure you're being flexible with responses (i.e., if the client responds with "juice" to "What do you drink?" this is correct, even if it's NOT what is on the picture card)
- Make sure you have a generalization plan for the client to generalize responding to WHAT questions outside of the context of cards!
- Check back our site (www.behaviorfy.net) for updated materials and free resources!
