

How to use:

- **Print, cut, and laminate cards.**
- **Cards can be used to work on expressive (labeling) or receptive (identification) skills.**
- **Make sure you have a generalization plan for the client to generalize responding to other community helpers that don't look like the ones in these cards! (i.e., other pictures, real people, videos).**
- **Check back our site (www.behaviorfy.net) for updated materials and free resources!**
